# ***1990 Annual Reports***

## **OPERATION DESERT SHIELD**

***Danville, New Hampshire***

Shortly after August 2, 1990, when the peaceful country of Kuwait has its freedom removed by Iraq, the United Nations responded to the aid of Kuwait in hopes of a peaceful resolution to restoring the peace and freedom to which the Kuwait citizens were accustomed.

## **SUPPORT OUR TROOPS**

Throughout time, military personnel have been called upon to provide the most basic right, and now again, our service men and women have been called upon to preserve and uphold that same basic right - the right of FREEDOM. We wish them all a speedy, decisive, and safe campaign, and show our undivided support.

**GOD BLESS, AND TAKE CARE OF THEM ALL.**

## 1990 TOWN REPORT DEDICATION

Every Town needs one! Some Towns have one! Danville is fortunate enough to have more than one! And this year, we are zeroing in on one of the best!

Therefore, this year we are dedicating the *1990 Town of Danville, New Hampshire Annual Report* to none other than Paul Collins, our "Retiring Building Inspector". Not only has Paul been our Building Inspector for 10-years, he has also been a Police Officer, Police Chief, and Treasurer of the Parsonage Committee for many years. During 1990, Paul also supervised and did most of the work in renovating our Town Hall. If you have been at the Town Hall recently, you know what a fantastic job he did -- and if you haven't been there, you are in for a treat when you see it.

All you have to do is ask if something can be done -- and before you know it, Paul has accomplished it. This was also the year that Danville started its Food Pantry -- and needed extra storage space. When Paul was asked if he could convert the closet in the old Town Clerk's office, he not only accomplished that, but also designed and build another double-wide closet for us as well. Later in the fall, when people started to donate articles of clothing, Paul asked his son David to build some clothing racks for us, and being just like his father, that too was accomplished. Needless to say, these were not charged to the renovation account, they were donations to the Town that most people never knew about.

We would like to wish nothing but the best for Paul for the future. The good thing for the Town of Danville is the fact that Paul and his wife Pat are not leaving the area, so they will still be here for us. Another good thing is they had the foresight to bring four children into the world, one of whom is David, and he will carry on the tradition of being of service to the Town of Danville by moving up from Assistant Building Inspector to Building Inspector.

Thanks again, Paul, for all you have done for the Town of Danville, and we know that you will continue to do what you can for us in the future.

## TOWN OFFICERS

## AUDITOR'S REPORT 1990

We have examined the accounts and other financial records of the following Town Officers: Selectmen, Tax Collector, Town Clerk, Treasurer, Parsonage Funds, Trustees of the Trust Funds and Trustees of the Town Library for the Town of Danville.

The Library Trustees have no documentation of their passbook account, as has been noted in the previous years.

The Town Clerk's accounts reflect an overpayment to the Treasurer.

Linda J. Carey, Donald M. Kimball  
AUDITORS

OPERATION  
DESERT SHIELD

***1991 Warrant and Budget***

## WARRANT

To the Inhabitants of The Town of Danville in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Danville Fire Association Hall in said Danville, on Tuesday, the twelfth day of March, next at 10:00 o'clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing. (By ballot).

2. (No election of School District Officers this year).

3. To see if the Town will vote to adopt the Amendment to the existing Danville Zoning Ordinance as proposed by the Danville Planning Board as follows:

Amend Article III.B., Zoning Districts and Boundaries, Commercial/Retail and Service, by adding B.4. to read:  
"A strip of land extending easterly along Pine Street from the centerline of Main Street to a point six hundred and ninety (690) feet from the centerline of Main Street. The strip of land to be four hundred and fifty (450) feet wide in both a northerly and southerly direction from the centerline of Pine Street."

Amend Article III.E., Zoning Districts and Boundaries, Residential/Agricultural/Post Office, to read:  
"That part of The Town of Danville comprising a strip of land four hundred fifty (450) feet wide both east and west measured perpendicularly from the centerline of Main Street extending from the Hampstead Town Line to a line that intersects the centerline of Main Street perpendicularly at a point two hundred thirty (230) feet north of the intersection between the centerline of Main Street and Pine Street, excepting those areas hereinbefore designated as Commercial/Retail and Service." (By ballot).

4. To see if the Town will vote to adopt the Amendment to the existing Danville Zoning Ordinance as proposed by the Danville Planning Board as follows:

Amend Article IV.A.2.a., Permitted Uses and Restrictions, to read:

a. "Customary home occupations, incidental to the principal use of the premises as a residence by the proprietor and not detrimental to the residential neighborhood, such as: service tradesman; dressmaking; millinery; letting of rooms; taking of boarders; preparing of food for sale; professional offices; selling of antiques, crafts or art objects; sale of farm products raised on the premises, are permitted as a special exception by the Board of Adjustment. To grant the special exception, The Board of Adjustment must find that:" (By ballot).

5. To see if the Town will vote to adopt the Amendment to the existing Danville Zoning as follows:

To see whether the Town will vote to amend Article V of the Zoning Ordinance as follows:

1. Revise Article V.A.1. to read, "All boundary lines of the park are one-hundred (100) feet or more from existing residences or public buildings."

2. Revise Article V.A.5., a. through h., by deleting it in its entirety and replacing it with the following:

"5. One-Half (1/2) acre lots shall be provided for each mobile home, with a minimum frontage of one hundred (100) feet on a roadway. Alternatively, the applicant may prepare a cluster design in which the total land area, per mobile home, shall be the same but the lot area for each mobile home need be no larger than twelve thousand (12,000) square feet, with one hundred (100) feet of frontage, the open space being held in common for the use of all of the park residents." (By petition) (Not recommended by the Planning Board) (By ballot).

6. To see if the Town will vote to adopt the Amendment to the existing Danville Zoning Ordinance as proposed by the Danville Planning Board as follows:

Amend Article V., Supplemental Regulations, by adding section G., to read:

G. FLOODPLAIN DEVELOPMENT ORDINANCE

This ordinance, adopted pursuant to the authority of RSA 674:16, shall be known as the Town of Danville Floodplain Development Ordinance. The regulations in this ordinance shall overlay and supplement the regulations in the Town of Danville Zoning Ordinance, and shall be considered part of the Zoning Ordinance for purposes of administration and appeals under state law. If any provisions of this ordinance differs or appears to conflict with any provisions of the Zoning Ordinance or other ordinance or regulation, the provision imposing the greater restriction or more stringent standard shall be controlling.

The following regulations in this ordinance shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency (FEMA) in its Flood Hazard Boundary Maps dated January 17, 1975 (or the flood hazard areas identified by the latest edition of the FEMA Flood Insurance Rate Map developed for the Town of Danville) which are declared to be a part of this ordinance and are hereby incorporated by reference.

#### 1. Definition of Terms:

The following definitions shall apply only to this Floodplain Development Ordinance, and shall not be affected by, the provisions of any other ordinance of the Town of Danville.

"Area of Special Flood Hazard" is the land in the floodplain within the Town of Danville subject to a one-percent or greater possibility of flooding in any given year. The area is designated as zone A on the FHBM.

"Base Flood" means the flood having a one-percent possibility of being equalled or exceeded in any given year.

"Basement" means any area of a building having its floor subgrade on all sides.

"Building" - see "Structure".

"Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving,

excavation, or drilling operation.

"FEMA" means the Federal Emergency Management Agency.

"Flood" or "Flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- (1) the overflow of inland tidal waters.
- (2) the unusual and rapid accumulation or runoff of surface waters from any source.

"Floodplain" or "Flood-prone area" means any land area susceptible to being inundated by water from any source (see definition of "Flooding").

"Flood proofing" means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitation facilities, structures and their contents.

"Floodway" - see "Regulatory Floodway".

"Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking and port facilities that are necessary for the loading/unloading of cargo or passengers, and ship building/repair facilities but does not include long-term storage or related manufacturing facilities.

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic Structure" means any structure that is:

- (a) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

- (b) Certified or preliminarily determined

by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

(c) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

(d) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

1) By an approved state program as determined by the Secretary of the Interior, or

2) Directly by the Secretary of the Interior in states without approved programs.

"Lowest Floor" means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such an enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.

"Manufactured Home" means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" includes park trailers, travel trailers, and other similar vehicles placed on site for greater than 180 days.

"Mean sea level" means the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on the Town's Flood Hazard Boundary Map are referenced.

"100-year flood" - see "base flood".

"Regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without increasing the water surface elevation. These areas are designated as floodways on the Flood Boundary and Floodway Map.

"Special flood hazard area" means an area having flood, mudslide, and/or flood-related erosion hazards, and shown on the Flood Hazard Boundary Map as zone A.

"Structure" means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Start of construction" includes substantial improvements, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or part of the main structure.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

"Substantial Improvement" means any combination of repairs, reconstruction, alteration, or improvements to a structure in which the cumulative cost equals or exceeds fifty percent

of the market value of the structure. The market value of the structure should equal: (1) the appraised value prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred substantial damage, regardless of actual repair work performed. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a "historic structure", provided that the alteration will not preclude the structure's continued designation as a "historic structure".

"Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains.

## 2. General Requirements

a. The Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is located in a special flood hazard area, all new construction or substantial improvements shall:

- (1) be designated (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy,

- (2) be constructed with materials resistant to flood damage,

- (3) be constructed by methods and practices that minimize flood damages,

- (4) be constructed with electrical,

heating, ventilation, plumbing, and air conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

b. Where new or replacement water and sewer systems (including on-site systems) are proposed in a special flood hazard area the applicant shall provide the Building Inspector with assurance that these systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.

c. For all new or substantially improved structures located in special flood hazard areas, the applicant shall furnish the following information to the Building Inspector:

(1) the as-built elevation (in relation to NGVD) of the lowest floor (including basement) and include whether or not such structures contain a basement.

(2) if the structure has been floodproofed, the as-built elevation (in relation to NGVD) to which the structure was floodproofed.

(3) any certification of floodproofing.

The Building Inspector shall maintain for public inspection, and shall furnish such information upon request.

d. The Building Inspector shall not grant a building permit until the applicant certifies that all necessary permits have been received from those governmental agencies from which approval is required by federal or state law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334.

e. 1). In riverine situations, prior to the alteration or relocation of a watercourse the applicant for such authorization shall notify the

Wetlands Board of the New Hampshire Environmental Services Department and submit copies of such notification to the Conservation Commission, in addition to the copies required by the RSA 483-A:1-b. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Conservation Commission, including notice of all scheduled hearings before the Wetlands Board (and notice of local wetlands hearings).

2) The applicant shall submit to the Building Inspector, certification provided by a registered professional engineer, assuring that the flood carrying capacity of an altered or relocated watercourse can and will be maintained.

3) The Building Inspector shall obtain, review, and reasonably utilize any floodway data available from Federal, State, or other sources as criteria for requiring that all development located in Zone A meet the following floodway requirement:

"No encroachments, including fill, new construction, substantial improvements, and other development are allowed within the floodway that would result in any increase in flood levels within the community during the base flood discharge."

f. 1) In unnumbered A zones the Building Inspector shall obtain, review, and reasonable utilize any 100 year flood elevation data available from any federal, state or other source including data submitted for development proposals submitted to the community (i.e. subdivisions, site approvals).

2) The Building Inspector's 100 year flood elevation determination will be used as criteria for requiring in zone A that:

a. all new construction or substantial improvement of residential structures have the lowest floor (including basement) elevated to or above the 100 year flood elevation;

b. that all new construction or substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level; or together with attendant utility and sanitary facilities,

shall:

(i) be floodproofed so that below the 100 year flood elevation the structure is watertight with walls substantially impermeable to the passage of water;

(ii) have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and

(iii) be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section;

c. all manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the 100 year flood elevation; and be securely anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces;

d. for all new Construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted provided they meet the following requirements: (1) the enclosed area is unfinished or flood resistant, usable solely for the parking of vehicles, building access or storage; (2) the area is not a basement; (3) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of flood water. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, or other coverings or

devices provided that they permit the automatic entry and exit of floodwater.

### 3. Variances and Appeals

a. Any order, requirement, decision or determination of the Building Inspector made under this ordinance may be appealed to the Zoning Board of Adjustment as set forth in RSA 676:5.

b. If the applicant, upon appeal, requests a variance as authorized by RSA 674:33, I(b), the applicant shall have the burden of showing in addition to the usual variance standards under state law:

(1) that the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense.

(2) that if the requested variance is for activity within a designated regulatory floodway, no increase in flood levels during the base flood discharge will result.

(3) that the variance is the minimum necessary, considering the flood hazard, to afford relief.

c. The Zoning Board of Adjustment shall notify the applicant in writing that: (i) the issuance of a variance to construct below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with a record of all variance actions.

d. The community shall (i) maintain a record of all variance actions, including their justification for their issuance, and (ii) report such variances issued in its annual or biennial report submitted to FEMA's Federal Insurance Administrator. (By ballot).

7. To see how much of the Parsonage Fund the Town will vote to spend for the ensuing year.

8. To see if the Town will vote to authorize the Selectmen to hire money for the use of the Town in anticipation of taxes.

9. To see if the Town will vote to authorize the Selectmen to sell Tax Title Property by public auction.

10. To see if the Town will vote to allow the Selectmen to reconvey title to tax deeded property to the former owners only; and only upon repayment of taxes, costs, interest and other expenses incurred.

11. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept and expend without further action by the Town Meeting money from the State, Federal or another governmental unit or a private source which becomes available during the year in accordance with the procedures set forth in RSA 31:95-b.

12. To see if the Town will vote to authorize the Selectmen to apply for, contract for and accept aid relative to natural disasters from the Federal Government Federal Disaster Assistance Administration in Washington.

13. To see if the Town will vote to accept Twin Bridge Road, Meadow View Drive, Cobbler's Ridge, Sweet Street, Danielle Street and Justin Drive as Town Roads, conditioned upon certification of acceptance of the construction by the Town Engineer not later than August 30, 1991.

14. To see if the Town will vote upon the recommendation of the Selectmen to withdraw up to \$1,000. (One Thousand Dollars) from the Recreation Capital Reserve Fund for repairs to the Kenneth R. Day Memorial Field.

15. To see if the Town will vote to raise and appropriate the sum of \$5,000. (Five thousand dollars) to be placed in the Colby Memorial Library Capital Reserve Fund. (Not recommended by Selectmen).  
(Not recommended by Budget Committee).

16. To see if the Town will vote to raise and appropriate \$5,500. (Five thousand, five hundred dollars) to be added to the existing Police Cruiser Capital Reserve Fund.  
(By petition).  
(Not recommended by Selectmen).  
(Not recommended by Budget Committee).

17. To see if the Town will vote to withdraw \$95,000. (Ninety-five Thousand dollars) from the Fire Truck Capital Reserve Fund, and raise and appropriate \$30,000. (Thirty Thousand dollars) for a total of \$125,000. (One Hundred and Twenty-five thousand dollars) to purchase a new fire truck.

(By petition).

(Not recommended by Selectmen).

(Not recommended by Budget Committee).

18. To see if the Town will vote to allow the selectmen/Fire wards to sell the 1972 International Fire Truck (E2) VIN # 106820H92893 and the proceeds of the sale be placed in the existing Capital Reserve Fund for Future Fire Truck purchases. (By petition).

19. To see if the Town will vote to raise and appropriate \$25,000. (Twenty-five thousand dollars) to be added to the Capital Reserve Fund for Future Truck purchases.

(By petition).

(Not recommended by Selectmen).

(Not recommended by Budget Committee).

20. To see if the Town will raise and appropriate the sum of \$1500. (One thousand-five hundred dollars) to purchase a copy machine for use at the municipal complex building.

(By petition).

(Not recommended by Selectmen).

(Not recommended by Budget Committee).

21. To see if the Town will raise and appropriate the sum of \$1600. (one thousand-six hundred dollars) to purchase a PC type computer system for use of the Police Dept.

(By petition).

(Not recommended by Selectmen).

(Not recommended by Budget Committee).

22. To raise such sums of money as may be necessary to defray Town charges for the ensuing year and make appropriations of the same.

23. To transact any other business that may legally come before the Meeting.

The polls will be open from 10:00 a.m. to 7:00 p.m.

The second session of the Business Meeting will be held at 1:00 p.m. on Saturday, March, 16, 1991 at the Fire Association Hall.

Given under our hands and seal, this sixteenth day of February, in the year of our Lord nineteen hundred and ninety one.

## DANVILLE FIRE DEPARTMENT

	<u>1988</u>	<u>1989</u>	<u>1990</u>
1. Any fire within a structure	14	17	14
2. Any fire except structures and motor vehicles	15	11	8
3. Motor vehicle fires	5	2	4
4. Illegal fires	1	2	1
5. Smoke investigations (No emergency found)	3	2	5
6. Motor vehicles involved in accidents	39	24	20
7. Rescue - number of calls	81	92	80
8. Rescue - number of victims	93	111	97
9. Ambulance transports	61	74	69
10. Service calls including non-emergency assist to Police	17	58	19
11. False alarms - good intentions	15	5	7
12. False alarms - malicious	2	2	1
13. Mutual aid - Rendered	13	21	17
14. Mutual aid - Received	23	176	5
15. Involvement of Hazardous Materials	-	-	6
16. Training Drills	<u>20</u>	<u>13</u>	<u>12</u>
TOTAL INCIDENTS	140	156	143

Medical calls are again the largest area of requests for assistance. To better meet these emergencies, the Rescue Squad is continually training to higher levels. The Fire Association and Firebellees are supporting this by assisting with the purchase of new equipment and supplies for both the Fire and Rescue efforts.

C.P.R. classes will be conducted again this year for the public, please contact Jan Pouliot if you are interested in a course.

The Tire Pile has been 'CHIPPED' and is waiting for transport to "chipped tire users". The dangers of fire and other hazards has been greatly reduced, and is much more controllable in its present form. Thanks to the E.P.A. "Super Fund", we received a \$25,000.00 grant to help pay for the costs of controlling the 1989 fire.

M. DAVID KIMBALL  
DONALD KIMBALL  
STEVEN WOITKUN

## ANIMAL CONTROL DEPARTMENT

The animal Control Department was very busy, picking up animals and answering the many complaints of barking dogs. It is time to think about your neighbor! You, as pet owners, have a responsibility to take care of your pet by not letting them bark, run loose, or destroy other peoples property.

The rabies clinic was very successful, but not all dogs are being licensed. There will be another rabies clinic in April, and I will try to have the veterinarian take heartworm tests at that time - (watch for a notice).

This Department is looking for an assistant, one who is willing to work with people and love animals.

A special thanks to the few who have donated items and to my mother Rose, for without her help taking care of the animals after I pick them up, I could not do my job.

Animals Picked Up	204
Barking Dogs	141
Dead Animals	29
Destroyed	10
Dogs in Rubbish	40
Dogs Licensed	287
Phone Calls	687
Placed	84
Returned	97
Running Deer	12
SPCA	13
Town Assists	12

MAUREEN GREELEY  
Animal Control Officer

=====

Land and Building Valuation --- \$ 154,092.00

Paid to State Treasurer ----- 505.00

Paid to County Treasurer ----- 433.29

Support of Schools ----- 736.51

14 Births

1 Marriage

7 Deaths

## POLICE DEPARTMENT REPORT 1990

As in past years, the members of this department have taken advantage of Police Standards and Training Council courses. All officers are now certified in the use of traffic radar. Courses in highway drug interdiction, hazardous material response, traffic accident investigating and reporting to name a few have also been attended by most officers, greatly exceeding the number of hours of continuing education required by the State of New Hampshire. Much of this done on the officer's own time, and at their own expense.

Again, as last year, we have had a decrease in the incidence of burglary, unlike our neighboring towns. Hopefully, we will be able to lower this statistic even more, as the Department is now making plans to initiate a Neighborhood Watch Program in the spring.

Having a second radar unit to use when one is being serviced has helped greatly in speed enforcement.

Again, I would like to thank the residents of Danville for their continued support and cooperation, and look forward to a safe and prosperous 1991.

### CALLS FOR SERVICE

Alarms	69	Juvenile	35
Animals	13	Loud Parties	22
Arrests	25	Miscellaneous	74
Assaults	6	Missing Persons	3
Assists	238	Obscene Calls	8
Bad Checks	6	Prowlers	12
Burglary	12	Recovered Property	11
Community Service	3	Suspicious Persons	25

Deaths Investigated	4	Thefts	37
Discharge of Firearms	13	Vacation Home Checks	58
Domestic Disputes	54	Vandalism	38
Emergency Messages	12	Well Being Checks	21
TOTAL CALLS FOR SERVICE		923	

Seven criminal complaints were prosecuted, all resulting in convictions.

### MOTOR VEHICLE ACTIVITY

Accidents Investigated	25
DWI Arrests	7
Traffic Citations Issued	169
Traffic Warnings Issued	253
TOTAL MOTOR VEHICLE ACTIVITY	454

The above complaints were heard in Plaistow District Court with a conviction rate of 98%.

F. BRADFORD GREELEY, Police Chief

## PLANNING BOARD

As we might expect, the latest economic down turn has had a dramatic effect on the reduction in requests to subdivide land. The Planning Board has approved only three subdivisions this year which created thirty-four new lots. Seventeen of those lots are only conditionally approved, subject to bonding. The Town potential for future growth is great, however, because there are many subdivided lots awaiting development.

The Town voted in favor of the Planning Board's recommendations for amending five zoning articles at the 1990 Town Meeting. These articles included provisions for the Town to review customary occupation through the Board of Adjustment, removed two restrictions on Mobile Home Parks (two mobile home parks and fifty units per park provision), and straightened out some conflicting dimensional definitions of floor area.

This year, the Planning Board is asking for your support for three warrant articles. The first is a proposed zoning district change for a 690 foot long parcel at the end of Pine Street where the Post Office is located. We propose to change this from Residential/Agricultural/Post Office to Commercial/Retail and Service. This would add approximately 13 acres to our Commercial/Retail district.

The second article is just a minor wording change of the customary home occupation provision passed last year. We want to change the word "permit" to the words "special exception" since this is what the Board of Adjustment must grant under this article. Permits are only authorized by the Board of Selectmen or their officials.

The third article is a new section, called the Floodplain Development Ordinance. This article must be enacted in order for Danville to become a member of the National Flood Insurance Program. Once we are a member, residents would be able to purchase flood insurance for their buildings on their property. This insurance is required for all insurable buildings within an identified flood hazard area whenever any Federal financial assistance is requested.

There is also a petitioned zoning article that the Town will be asked to vote on. This article reduces Mobile Home Parks from its present one acre to one-half acre and the cluster provision for mobile parks from 15,000 square foot lots to 12,000 square foot lots. The Planning Board does not support this petitioned article for the following reasons:

(a) The density calculation does not exclude roads, wetlands or water areas, contrary to all other density calculations of our zoning districts; (b) The resulting density will be more than four times the density of the rest of the Town. This will have an adverse impact on traffic, roads, schools and services; and (c) The 12,000 square foot lot size fails to meet minimum State standards for lot size for group 2 soils and higher for on-site disposal.

Further questions you may have can be answered by contacting any of the Board members listed below. We hope that we can continue to have your support of our recommendations.

## THANKS TO ONE AND ALL

This is just a brief note to thank all of the citizens, groups and organizations who donated in one way or another to the Danville Food Pantry that was established early in the fall of 1990.

It is *PEOPLE HELPING PEOPLE* in its finest tradition that has helped stock our pantry -- and also enabled us to distribute Thanksgiving and Christmas baskets.

We have also had many contributions of "good used clothing", so we have a clothes closet at the Town Hall for your use.

Both the food pantry and clothes closet are open on Saturday morning (for the time being) from 10:00 a.m. to 12:00 noon, AND also by appointment. You may call either Doreen Moore at 382-5189 or Claire Mace at 382-5436.

These services are here for you, so please do not hesitate to use them if and when you need them.

## COLBY MEMORIAL LIBRARY

The recession has been a boon to library business. Record numbers of people are using the library including the 116 new patrons. People are putting off buying the latest best-sellers, cancelling subscriptions to magazines and newspapers and not paying fees to rent videos. Instead they are flocking to the library. Our circulation of books both regular and large-print, audio tapes and videos increased a whopping 22% this year. Items that we do not own were borrowed from other libraries statewide with delivery via the NHSL van to the Kingston library where I pick them up. During the year 461 items were catalogued into our collection.

As Director I represented the library at the NHLA Spring and Fall Meetings and the monthly meetings of the Merri-Hill-Rock Cooperative. Through coop-erative efforts we have been able to achieve substantial savings.

In the Spring the Trustees appointed Dorothy Billbrough as Children's Lib-rarian. She held a successful Summer Reading Program followed by a party at which the participants received certificates. She was our representative to the state association for Children's Librarians.

At a Tea in the Fall honoring long-time trustees I presented certificates from the NH Library Trustees Association to Amy Kimball, Patricia Cote, Constance Metcalfe, Suzanne Weinreich and Mary Lou Averill. Also at this time I gave certificates of appreciation to all our current group of volunteers. Without their help we would not be open on Saturdays.

Aide Ruth Healey completed two more of the required courses in the Public Library Techniques curriculum for employees in public libraries.

The Friends Group had a busy year. They held their annual Easter Bake Sale, a very successful Christmas Sale with a giant raffle and sold items at the desk for other holidays throughout the year. With the help of an anonymous donor they purchased a new copier which has the capability to enlarge and reduce. Some of the monies earned have been added to their Trust Fund for the library. The group was saddened by the loss of two members, Florence Peterson and Muriel Savarese. Florence's family set up a memorial fund for future purchases in the new addition.

This year a committee will be appointed to begin planning for this addition. We ask your support for our warrant article for \$ 5,000.00 to be added to the Capital Reserve Fund for this purpose.

Library cards are free to all residents and the library is open on Monday, Tuesday and Thursday from 3 to 8:30 p.m.; Wednesday and Saturday from 9 a.m. to Noon. Summer hours are slightly different. Do stop in.

Deborah S. Meigs  
Director

## 1990 TOWN FOREST REPORT

The wood request has been light this year -- so far eight (8) cords have been cut. It is still available at \$15.00 per cord.

MELTON R. SANBORN  
Town Forester

## 1990 CEMETERY TRUSTEES REPORT

Several lots have been sold. The new section at the Old Meeting House will be ready for loam in 1991.

A new section for family cremations has been added to the Center Cemetery. Lots are \$100.00 for a 2-foot by 10-foot size plus corner stones.

MELTON R. SANBORN  
Cemetery Trustee

## REPORT OF THE TRUSTEES OF THE TRUST FUNDS DANVILLE, NH., YEAR ENDING DEC. 31, 1990

Considering only those funds held for the entire year, the yield in investments for 1990 was 8.5%. This compares with 8.3% for 1989 and 8.1% for 1988.

Eight new cemetery lot perpetual care funds were established in 1990:

Joseph L. & Marilyn V. Banks  
Ray & Vi Culligan  
Robert J. & Mary E. Komusin  
Karl J. Villacaro  
Francis M. & Evelyn M. Jones  
Sheela Hicks  
George A. Goodall  
Foaline & Clifton Taylor

A new fund for equipping the planned addition to the Colby Memorial Library was established in memory of Florence Peterson.

The more notable expenditures this year were: \$10,500.00 taken from the Police Cruiser Capital Reserve Account towards the purchase of a new cruiser, and \$28,505.41 taken from the Municipal Building Capital Reserve Account for work on the Town Hall. Also the Timberlane Regional School District recalled its \$295,197.51 capital reserve account to continue its building program.

Trustees of the Trust Funds:  
George S. Chaudoin  
Shelley Demaine  
Peter S. Meigs

PATRICIA A. HOWE, Town Clerk

REPORT OF  
Plaistow Area Transit Advisory Committee  
(PATAC)

The officers and members of the multi-town organization know as PATAC (Plaistow Area Transit Advisory Committee) want to thank the voters of our towns for their support and offer this report of PATAC's progress since its birth in May of 1990.

When PATAC was first formed, we were gratified at the large number of towns which sent representatives to work on restoring commuter rail service to the Plaistow area.

At our first meeting, we divided into subcommittees to work on coming up with a ridership survey, with getting by-laws drawn up and with investigating sites along the existing railroad tracks for a station and, later, a lay-over facility.

Our first job was to find out if there were enough people out there who would ride a commuter train from the area. With the help from the New Hampshire Department of Transportation and the Rockingham Planning Commission, this ridership survey was quickly formed and completed in August. The survey showed that there is widespread support for commuter service and our work went forward.

Our monthly meetings, rotating among the member towns, drew upon the knowledge of experts in the field as well as from volunteers, among whom were included several members of NHDOT, including former Commissioner Wallace Stickney, current Commissioner Charles O'Leary, Rail Bureau Chief John Clement; Charles Steward and John Thompson of the MBTA, James Stoetzel of Stoetzel Associates of Andover, Mass.; Colin Pease of Gilford Transportation; Thomas Greenman of the Nashua Study Committee; and Wayne Davis, Chairman of the Portland-based TrainRiders/Northeast.

In December, proposed legislation was filed to study the formation of a transit authority, if, indeed, one is needed; a letter was sent to set up a meeting with Massachusetts Governor William Weld and Lt. Governor Paul Cellucci; and an appointment was sought for a meeting with New Hampshire Governor Judd Gregg.

Although we would like to report that commuter rail service between Plaistow and Boston is a reality, we feel that service could be in place within a couple of years, if not sooner.

On a personal note, I want to thank the entire membership of PATAC, especially the officers and the members of the various sub-committees - without them we

would never have reached the point at which we now find ourselves.

Again, we thank the voters and residents of our towns and ask for your continued support.

Respectfully submitted:

Marilyn P. Senter  
PATAC Chairman

---

## REMINDERS -- REMINDERS -- REMINDERS

Trash and Recycling pickups are delayed 1 day for the following holidays if the holiday occurs from Monday through Thursday:

New Years Day  
Memorial Day  
Labor Day  
Veteran's Day  
Christmas Day

President's Day  
Independence Day  
Columbus Day  
Thanksgiving Day

In regards to recycling, please place your recyclable items in the bin in the following order:

1. Put glass bottles (if any) in the bottom of the bin, and it is NOT necessary to remove the labels...

2. Put aluminum cans on top of the glass bottles, and you MAY crush them if you desire...

3. Put newspapers on the very top. Newspapers should be bundled with twine or placed inside paper grocery bags. DO NOT include shiny paper magazines such as *Times* or *Newsweek*. Shiny paper advertising inserts DO NOT have to be removed from regular newspapers.

REMEMBER -- The recycling bin is the property of the Town of Danville. Please take good care of it! If you move away, make sure that the bin is given to the new occupants, and that they know how to load it.

REMEMBER -- The recycling pickups are being performed by Waste Management, Inc., at the direction of the Selectmen; therefore, problems or concerns should be directed to the Selectmen and NOT Waste Management, Inc. Your cooperation will help Danville control ever-increasing costs for solid waste disposal and will lessen the environmental problems in the future.
